

Our School Vision

At **LITTLETOTS INTERNATIONAL PRESCHOOL** , our vision is to nurture young minds with care, curiosity, and creativity. We aim to create a joyful and stimulating environment where children develop a love for learning, strong values, and essential life skills. By fostering individuality and holistic growth, we aspire to empower every child to reach their full potential and embrace the world with confidence and kindness. Through engaging activities and innovative teaching methods, we cultivate critical thinking, emotional intelligence, and social skills. We prioritize the development of each child's unique talents and interests, ensuring they feel valued and supported.

PROSPECTUS

Welcome to *our school*

At **LITTLETOTS INTERNATIONAL PRESCHOOL**, we believe in nurturing young minds with care, creativity, and curiosity. Our holistic curriculum blends play-based learning with foundational skills, creating a joyful and stimulating environment where children can explore, imagine, learn, and grow. With passionate educators, child-friendly facilities, and a focus on emotional and social development, we help children build confidence, independence, and a lifelong love for learning. Every child is unique and we celebrate their individuality while guiding them toward a bright and promising future. Together, let us illuminate the first steps of their educational journey with warmth, encouragement, and inspiration.

The Philosophy

A Child's path to excellence begins with the perfect role model and the perfect tools.

Research proves that Early Education is critical because:

- Brain development is most rapid in the early years
- 75% of neural connectivity is complete by the age of 7
- When the quality of stimulation is deficient, child development is seriously affected.

The capacity to absorb concepts and learn is highest during Ages 2 to 6. Hence it is important to expose the child to an environment that provides an appropriate stimulus for learning.

Intelligence is an important factor to consider when a child comes to school.

Intelligence

Inherent

Inherent Intelligence is the maximum intelligence a child can achieve in accordance with genes.

Acquired

Acquired Intelligence is what a child gets with environmental factors like culture, family, and education.

The Curriculum

Our curriculum is focused on the following areas of development:

- **Physical**
- **Intellectual**
- **Language**
- **Creative**
- **Socio Emotional**

Why Choose Us?

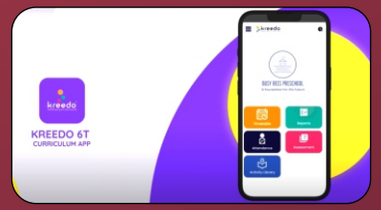

- **Child - Centric Curriculam**
- **Activity - based learning**
- **Safe & Secure Environment**

The 6T App

The core of 6T learning framework centers around play based learning, seamlessly integrating essential components align with the curriculum. It consists of various elements including:

- **Toys & Games**
- **Theory**
- **Timetable**
- **Training**
- **Technology**
- **Teamwork**

Transportation Available

A Curriculum is a set of experiences and events that are planned to foster a child's learning. Our curriculum explores.

The Environment

The environment is a major part of our curriculum. A young child must get daily experience with learning aids in a structured environment which has specific usage, derived from the curriculum. The environment in our curriculum facilitates self-learning in every child.
